CONTENTS

Neal BEZ and Mitsuru SUGIMOTO — Remarks on the Mizohata– Takeuchi conjecture and related problems	1
Masahiro IKEDA — Asymptotics for the Schrödinger equation with a repulsive delta potential and a long-range dissipative nonlinearity	13
Takuto IMAI, Masakazu KATO, Hiroyuki TAKAMURA and Kyouhei WAKASA — The sharp lower bound of the lifespan of solutions to semilinear wave equations with low powers in two space di- mensions	31
Soichiro KATAYAMA — Remarks on the asymptotic behavior of global solutions to systems of semilinear wave equations	55
Shotaro KAWAHARA and Masahito $OHTA$ — Instability of standing waves for a system of nonlinear Schrödinger equations in a degenerate case	85
Yuki KIMURA and Takayoshi OGAWA — Energy structure and as- ymptotic profile of the linearized system of thermo-elastic equa- tion in lower space dimensions	101
Naoyasu KITA and Yoshihisa NAKAMURA — Decay estimate and asymptotic behavior of small solutions to Schrödinger equations with subcritical dissipative nonlinearity	121
Hideo KUBO — Modification of the vector-field method related to quadratically perturbed wave equations in two space dimensions	139
Chunhua LI and Hideaki SUNAGAWA — Remarks on derivative non- linear Schrödinger systems with multiple masses	173
Felipe LINARES, Gustavo PONCE and Thomas C. SIDERIS — Properties of solutions to the Camassa-Holm equation on the line in a class containing the peakons	197
Shuji MACHIHARA, Tohru OZAWA and Hidemitsu WADADE — Re- marks on the Hardy type inequalities with remainder terms in the framework of equalities	247
Satoshi MASAKI — On the scattering problem of mass-subcritical Hartree equation	259

Makoto NAKAMURA — Global solutions for nonlinear Schrödinger equations in de Sitter spacetime	311
Pavel I. NAUMKIN — On the factorization technique for the dispersive nonlinear equations	323
Hironobu SASAKI — Remark on the scattering operator for the quintic nonlinear Dirac equation in one space dimension	351
Takuya TOMIDOKORO and Tomomi YOKOTA — Blowup for a com- plex Ginzburg–Landau equation focusing on the parabolicity	375
Takeshi WADA — Kato type smoothing estimates for magnetic Schrödinger equations with rough potentials	389
Yuta WAKASUGI — Second order asymptotic expansion for wave equations with time-dependent dissipation in one-space dimension	401
